We are all Working From Home (WFM) these days...

WFH may be a trend that carries on for months, years or perhaps becomes a permanent solution in your workforce culture.

But how do you determine how well your WFH staff is adapting? By using Ripple, you can collect objective feedback from your WFH employees and turn it into actionable information.

During the next 3 months, Ripple is offering monthly subscriptions at a 50% discount ($2.50/month/user vs. $5.00) to help organizations gather, process and act on feedback from their WFH team during (and after) this crisis. Email us at info@ripplecrew.com to discuss your new account!
